Some of the candidates on our State ticket may not receive so arge a majority, but others may receive a much larger one. Col. The Indiana Journal acknowledges that the vote for Judges is nearer the test than on any other officer, and consequently whatever vote they may receive will be an indication of the relative igth of the two parties in the State. But this is only portially true, for in many portions of the State the Democratic Judges suffered equally with McClure, Dodd, and Cunningham, on ac count of the so-called "anti-Lecompton" defection Such was the case in this county and in others which we could name. Hundreds of Demo crats voted the Republican State ticket, out and out, in opposition to what was falsely called the

fice for six years.

The election of our State ticket shows that the Democracy of Indiana are still in the ascendant - still as powerful an organization as when in Oc tober, 1856, they decided the Presidential elec-tion by choosing Ashbel P. Mr Editor: Among the numerous names of distinguished citizens presented for Lieutenan Governor, we think Wm. E. Mr. some sixty miles below the mines, and remain Simms has served the country, both in a civil and there till spring. They were generally very well military capacity, and is eminently qualified to provided. grace the office of Lieutenant Governor

In the great struggle in 1856 for the Presidencv, Mr Simms was not an idle spectator. On the contrary, he canvassed nearly every county of the Sixth Congress onal District, and answered the speeches of one of the most eloquent of the merican party with ability and success, and to the gratification of the friends of Mr. Buchanan; and is entitled to no little credit for the extraor dinary majority polled in this district for Mr.

Mr Simms was one of those far-seeing patriots, and was among the e rliest of them to see and point out to the people that there would be eventually but two political parties in the nation-the at National Democratic party and the section al Black Republican party; and he foresaw and pointed out that the little Know-Nothing party had not the strength to render any service to the country, and would eventually be swallowed up by the Black-Republicans.

Oft n have we heard the hardy citizens of this district, speak of the thrilling speeches of Mr. Simms in 1856, with delight and approbation. Such men ought to be honored.

Here is his letter:

ASHLAND, LEXINGTON, KENTUCKY, October 11th, 1858. Gentlemen: I have received your favor of the 5th inst., inviting me to address a portion of the citizens of your State at Peoria, some time prior to the election in November

It would afford me great satisfaction to be able to meet my fellow-citizens of Illinois, and to express in person some of the views I entertain upon the politics of the day; but private and domestic reasons will prevent my leaving home much before the meeting of Congress.

I agree with you fully in the opinion you exressed of the importance of the contest now oing on in Illinois, which I have watched with ep interest. As the representative of the Reaubhean p rty-a party which has no existence outh of Mason and Dixon's line, and is therefore sectional, mainly based upon opposition in every shape to a domestic institution of nearly one half of the States, whatever his protestations may be

I believe Mr. Lincoln will be found always to act with his party The rise of such a sectional party, separated from the rest of the Union by a aphical line, has ever been looked to with pprehension and dread, and I have been taught believe that its success would be fraught with danger to the Union itself

Although I have not agreed with Judge Douglas in every position he has taken, yet I believe him to be a Union man, and in his present con test, leading the National Democracy, who, in my opinion, aione have the power successfully to combat the designs of the Abolition Republican party. I believe he ought to be elected to the Senate, and I sincerely hope he will be. I am, gentlemen, very respectfully,

Our Democratic friends have every thing to enthe firmest decision, and of the most cularged test. We want men of the purest integrity, of capacity. Without any disparagement to the claims of any other aspirant for the office of Lieutenant Governor, the name that strikes most suitably and forcibly upon the ear of the Democracy it this county, is that of Gen. GEO. B. SLOAT & CO.'S ELIPTIC SEWING MACHINE TRIUMPHANT! THESE Machines have been on exhibition at the Louisville Mechanies' Fair for the past six weeks, contending with Wheeler & Wilson's celebrated Machine, and many others, for the prize. After thorough examination by a mpetent judges, the premium was awarded to Sloat's Machine, and now we notice the acknowledgement of the defeated party to the justice of the award, by the sudden and material reduction in the price of the defeated Machine.

hine. Sloat's Machines have been introduced in Ken-acky since July last; since which time they have apidly gained in public favor; and such is now the lemand for them, in consequence of their superiori-y and low price, that the manufacturers at Phila-lelphia are turning out 200 per week, and the de-mand not fully met.

delphia are turning out 200 per week, and the demand not fully met.

There is no other Sewing Machine now before the public that will carry the heavy, or the light thread, perform equally well on the thickest and heavest, or lightest fabric, and which has enfire freedom from that painful and never-to-be-forgotten trankle, called the pad. It is very simple and strong in its construction, offered at the low price of \$60, and warranted to perform perfectly for 3 years.

Reference given to all persons using Wheeler & Wilson's Machines, if not prejudiced. It will give me great pleasure to show these Machines to all persons desirous to purchase or examine a Sewing achine, that will not vex and trouble them in its performance.

its an evasion of the constitution, and a violation of its essence and spirit.

It cannot escape the candid judgment, when considered in connection with the purposes the counties were formed for, and the absence in them of sovereignty, except as realized in the presence and person of the commonwealth, and the absence of power in them to raise revenue to regulate their own local police, except it be afforded them by laws passed for that purpose that no implied power can result to them, or the Legislature to confer it on them at the will of a majority to tax the minority, or create a debt for any other purpose than to regulate their own police.

The Commonwealth is and ideal, intangible thing; it is a word or name used to describe the whole attributes of government in Kentucky, and it possesses a kind of legal omnipresence throughout the whole territorial limits of the State; being confined in its attributes to no particular spot or locality, but present everywhere therein to govern. It resides as much in the county of Carter, and with her people, as elsewhere in the State, and as much in any other county in the State as there. It resides enough in each county to govern, and no more.

Hence its powers and offices are count in each

each county to govern, and no more.

Hence its powers and offices are equal in each county, the better to facilitate the performance of the Commonwealth's high functions. It divides itself into municipal divisions, called counties. Each one forms an inseparable part of the Commonwealth in her governing capacity, or the majesty of government therein is the same, and inseparable from the majesty of government in the other counties. So that, in a legal point of view, they each, in their functional duties and powers, impersonify the Commonwealth. Whatever is done by a county, in her public and functional capacity, with iniher legitmate sphere, is done by the Commonwealth; for in a legal constitutional point of view it is the Commonwealth doing the act through her proper functionary. (a county.) Thus, it is the Commonwealth holds her elections, appoints her officers, inducts them into office, convenes her courts, impannels juries, vindicates her laws, &c., the counties serving as so many agents through which the Commonwealth performs her functions.

These acts, though the counties are the apparent

reach him and his property the functions.

These acts, though the counties are the apparent actors, it is in a legal sense the Commonwealth exercising her functions, through her legitimate visible organs, and to these purposes were the counties oreated and devoted, and to these they are constitutionally limited. They have no separate sovereignts or will: but it is one of the sources of the will and sovereignty of the State, and contributes to it. Although the counties in their territorial organization are distinct from each other, yet in their character and offices their relations are so intimate, that whatever affects the one relatively affects the whole; and in a legal point of view it is the Commonwealth affected, although in one of her members only; yet the effects are sent thrilling through the whole body po itic, through the agency of the relation the affected, although we might say, using common parlance, that a county gave or loaned her credit to a corporation, created on herself

debt for any other purpose than to regulate their own police.

Wast property have they to pay with? How is payment to be enforced? Suppose the bonds were to fall into the hands of subjects of anothor sovereignt, are hey to look to the counties as so mans sovere gas, and hold them responsible on principles of international law? Or are they to look to the State as the residue to despense with these local ministers of her power, and adopt others more enlarged or limited, as more fitting, called by a different name, who would pythe debt? These embarrassing questions serve to show that no such power can fairly be implied to rest with the countries, and the Legislature can't confer it on them: but that a public debt, created under the specious pretext of a county debt, is really a debt of the government, absolutely or contingently, and that it is at war with government's local ministers.

The Commonwealth is and ideal, intangible thing: during the past twenty-four hours. On administering some nourishment to her she in a short time became delirious, and in that condition reanacted her own part in the drama in which she had so recently been an actor, and out of which her virtue had come scatheless.

rest of Horace Bell. ill be remembered that several weeks si ne the Meade county jail, at Brandenburg, was for-cibly entered by Horace Bell, who released his

father and brother (charged with running off negroes) from durance vile. Since then the authorities of this State have been attempting to re-arrest the parties. But the elder Bell and his son have left for parts unknown, and their estate in Harrison county, Ind., was sold a few days On Saturday it was ascertained that Horace

Bell, who had broken into the Brandenburg jail, was in New Albany. Five of our police officers (among them John Rogers and Sylvester Deshon) proceeded across the river. They found Bell on Main street, going towards the Depuw House, where he intended taking the stage for Corydon. He was immediately seized and taken to the wharf. On the ferry boat Adelaide were two sisters of Bell, who, with him, strenuously objected to the seizure, and protested against the ferry ers, and commanded the hands of the boat to proceed with the trip. Of course they could not resist such form dable arguments, and acquiesced. Bell was accordingly brought to this city, lodged in jail, and, it is said, on Saturday at midnight

was conveyed to Brandenburg At the time of the arrest, a great majority of the people of New Albany were attending the fair. When the news was circulated, it created the most intense excitement. The bells throughout the town were rung, vast crowds were collected, and all proceeded to the wharf. There a process was served upon Henry Tennison, pilot, and Dan Taylor, fireman, of the ferry boat Adeaide. They were arrested as accessories to the kidnapping of Bell, and held to bail in \$500 each, to appear before the Mayor of New Albany, sday morning at 9 o'clock.

During the night the excitement in New Albaincreased. One of the ferry boats was seized and steam raised, a party proposing to go to Brandenburg to rescue Bell. Couriers on swift horses were dispatched to arouse Bell's neighbors, and parties placed on the roads to interrupt the party carrying Bell to prison. Yesterday the excitement had not abated. The streets and wharves were thronged with people. The churches were deserted. To allay the intense eeling, Gov. Willard, Judge Otto, and John S. Davis, used their best efforts. The previous evening the arsenal was broken open to procure arms for a body of men who proposed visiting this city and attacking our jail .-- Lou. Courier.

Being about to engage in other pursuits, I offer for sale my DISTILLERY and FIXTURES.—
This property is about one mile below Frankfort, and just below the Lock, and within the range of the proposed extension of the water privileges. It has an excellent wharf, perfectly convenient for the landing of coal, wood, grain, &c., and equally so for the shipment of everything either up or down the river. The improvements consist of a large three-story stone warehouse, a still-house, wood-house, and excellent pens. The machinery is of the best and most improved patterns for making Copper-distillet Whissy—the engine is a splendid one and entirely new, having cost, a few months since, about one thousand dollars. The establishment is supplied by a splendid spring of pure water which never fails and never gets muddy. The property could, at a very trifling cost, be converted into one of the best and most eligible flouring mills in Kentucky. Any one wishing to purchase will apply to me at my residence adjacent to the premises.

New York Lung Infirmary.

MY connection for the past eight years with the above Institution, as Chief Physician, and a twive years course of steady devotion to the Cure of Pulmonary Consumption and its kindred diseases, together with my unrivalled opportunities and advantage of pathological research—aided not a little by a perfect system of Medical Inhalation—has enabled me to arrive at a decisive, direct, and successful course of treatment for the positive and radical cure of all diseases of the Throat, Lungs, and Air-Passages. By Inhalation, the vapor and curative properties of medicines are directly addressed to the diseased organs and the integument. I do

therefore that the arrangement will give entire satisfaction, both to my professional brethren and the putile. I would respectfully announce, in conclusion, that I can now be consulted personally or by letter, on all diseases as above, and that the medicines, the same as used in the Institution, prepared to suit each individual case, Inhaling Vapors, Medical Inhalers, &c., &c., will be forwarded by express to any part of the United States or the Canadas. TERMS—My terms of treatment by letter are as follows, vizz \$12 per month for each patient, which will include medicine sufficient for one month's use; also, Inhaling Vapor, and an Inhaling Apparatus. Payment as follows: \$6 to be paid to Express Agent on receipt of the box of Medicine, and the balance \$6 at the expiration of the month, if the patient be cured or is entirely satisfied with the treatment. PHILADELPHIA, October 29, 1849.

Yours, respectfully.

Communication to John R. Penrose, Esq., from Mr. Franklin Eyre Kensingten.

It is with great gratification that I testify to the efficacy of "Williams' Anti-Dyspeptic Klixir," which you so strongly recommended to me, and for which I heartily thank you; it has completely restored my health, which I cheerfully publicly acknowledge, with the hope that others may be similarly benefited.

Truly yours. FRANKLIN EYRE.

October 10, 1850.

Dr. James Williams—Dear Sir: Having suffered for a long time from Dyspepsy so severely that I was completely prostrated, and having tried every means for relief without success, I was advised to use your "Anti-Dyspeptic Elixir." It affords me much pleasure to inform you that I am entirely cared by its use and I cordially recommend it to all persons suffering under Dyspepsy. Very, respectfully, &c. "GEORGE WOODRUFF. Testimony of Mr. Abner Elmes, Market street, above Sixth, corroborative of the efficacy of Williams' Anti-Dyspeptic Elixir:

Dr. James Williams—Dear Sir: It gives me great pleasure to know that you are again preparing your medicine for the cure of Dyspeps, for many of my acquaintances have repeatedly asked me where it could be procured, knowing that I had been cured by it. As I think that a public acknowledgment of the great benefit I have received from the use of your medicine is not only due to you, but may be useful to others, I now make it. For several years I suffered from Dyspepsy, which increased to such an extent that my health and constitution were rapidly sinking under it. I was compelled to restrict myself to the most simple food, and even that I could not direct; I felt a loss of strength, disinclination to exercise, and (as you have it in your advertisement) a general feeling of depression and indescribable weariness. In the year 1838, hearing from others high recommendation of your Anti-Dyspeptic Elixir, I procured and used it with the most happy effect; und r its influence, languor and weariness gradually passed away, and my appetite returned, which I could gratify with impunity. Ten years have now elapsed, and my confidence in the curative powers of your medicine has and my appetite returned, which I could gratify with impunity. Ten years have now elapsed, and my confidence in the curative powers of your medicine has of course increased, for it completely cured me when I failed to obtain relief from any other source.

Very respectfully yours,

ABNER ELMES.
